Roland S. Robbins has resigned as manager of B. F. Keith's Washington Theater, after fifteen years' service, it was learned last night, and J. Charles McDonald, of New York, has been named to succeed him. The change is in effect, but Mr. Robbins will not leave Washington.

Philadelphian Is First to Face Trial on Bribe Charges.

Philadelphia, Oct. 9 (A.P.) .- Herbert W. Layre, a district detective, was convicted by a jury in Common Pleas Court today of extortion and bribery in accepting money from saloonkeeper

Layre is the first of the police, ar sted as the result of the special grand jury's investigation of bootleggers and olice corruption, to be convicted by a jury. He had been a member of the police force for 20 years. Among those who heard the verdict

were former Police Captain William C. Knoell, under whose command Layre had served, and John W. Sells, another district detective both of whom had pleaded guilty on the same charge.

Sentence was deferred by Judge James G. Gordon, jr., as counsel for Lavre made a motion for a new trial and was given four days in which to file his reason. Judge Gordon refused a request to admit all three prisoners to ball pending sentence. About 35 other policemen and police

officials are under arrest in connection with the investigation, but their cases have not yet been submitted to the October grand jury. Taking the stand for the prosecution today, John Englemann, a saloonkeepe

**CONFUSION IS SEEN** AS RESULT OF CLASH

Police Disruption Predicted, as Both Claim That Other Holds Authority.

Serious confusion in the adminis tration of District affairs is in prospect following a head-on collision yesterday between the Civil Service Com mission and Mai. Edwin B. Hesse

In this event, Maj Hesse would be calld upon to add a new problem to the several which are already resting upon his shoulders.

The major, however, takes exactly the opposite view of the matter, and as a result the final authority in District affairs, not only in those pertain ing to police but in all where civil service rules have been in force, is placed in doubt. Illusioned. In a maze of home runs that found Babe Ruth securely esconced on the throne that has been his for a decade, the Yanks won the game, 7 to 3, won the world's series in four straight games, and the unalloyed acclaim of a nation's fans as the greatest ball club

in history. For the Babe did not hit one homer nor two. He hit three large, luscious wallops out of the park-first for the disillusionment of 40.000 fans who blotted out every bare spot in the St. Louis Park: then for their delectation, and all for the glory of the Yanks who have now won eight consecutive world series games and two major league

championships in four straight. Sherdel Falls Again in Box There were five home runs by the Yankees as they dealt defeat to the team which had beaten them in seven ago but the wallops of Lou Gehrig efforts to right field, served only to accentuate the glory that was Ruth's for only the Babe himself had ever hit three home runs in a world series game and his efforts of today equal

### PRESIDENT IS OPTIMISTIC

COOLIDGE'S ADVICE

President Coolidge believes his former Cabinet member. Herbert Hoover, will win the election in a walk. He has told White House callers that their apprehensions of defeat are without foundation. His advice to Hoover has been to keep cool, not permitting himself to be stampeded into any rash act or statement, and the American people would do the rest. This, it is believed in administration circles, has influenced Hoover in his speaking campaign.

Charles C. Beckman, suspended captain of de-ectives, being tried on charges of conduct unbecoming an officer for alleged connivance with bootleggers, today attempted to avoid further trial before the civil service commission by resigning, but his action was disregarded.

Beckman was cited by the special grand jury investigating bootlegging and police corruption as unfit to hold public office and his dismissal from the service was recommended. Under the law he could not be dismissed without a trial by the commission. The commission has sa: three days hearing testimony against him tending to show that he accumulated considerable money in excess of his salary and that he war in frequent conference with an alleged bootlegger. BRIDE'S SUPPORT SEEN

Plans to take into court a fight against any fare raise which may be granted the street car companies by the Public Utilities Commission were carried forward yesterday at conferences between William McK. Clayton, chair-man. and William A. Roberts, vice chairman of the Federation of Citi-zens Associations public utilities com-mittee, with District officials. Various phases of the disection were discussed. phases of the question were discussed with Ralph B. Fleharty, people's coun-sel, and William W. Bride, corporation counsel and general counsel of the

set, and william W. Brice, corporation counsel and general counsel of the Utilities Commission

Out of these conferences the leaders of the citizens' fight against higher fares have come with increased hopes for success in the courts, if they have to start suit to stop the fare increase. Although Corporation Counsel Bride has not been asked by the commission for an opinion on the question of valuation, and will not discuss the question publicly, opponents of the fare increase feel certain that he will support their conteniton that the Public Utilities Commission does not have to proceed on the basis of the existing valuation of the Capital Traction Co., fixed by the District Court of Appeals in 1925.

Bride, it is believed, does not go so far as do Clayton and his aids in declaring that the commission may not fix fares on the basis of that valuation. The question resolves itself into one of policy, it is said, with the commis-

# COOLIDGE OPPOSES

Suggestion That Some Hold Up Resignations March 4 Brings Out Views.

DIRECTED AT CLIQUES

By ALBERT W. FOX.

sident Coolidge does not approve of a self-perpetuating body of career nen in the diplomatic service of the United States. The suggestion that certain American diplomats agree mong themselves not to tender their resignations at the end of the present dministration has caused this matter

of career men.

And it was stated yesterday that Mr.
Coolidge favors the idea of improving the diplomatic service by encouraging men of practical experience and training to remain in it.

But evidences have undoubtedly come to the President's attention of certain cliques in the service which have taken upon themselves the task of promoting their own interests and attempting to assert their independence. These cliques are made up exclusively of career men.

The flow of promotion in the service is a rule follows merit and demonstrated fitness, with some exceptions to the rule, where favoritism creeps in as a result of the clannish spirit of temporarily dominant cliques.

porarily dominant cliques

Problem for Congress.

Career men reaching the top of the ladder and attaining the rank of ambassador or minister find themselves now confronted with the unwelcome duty of sending in their resignations which, if accepted, may mark the end of their diplomatic careers. This feature of the American diplomatic service admittedly presents a problem which the Congress will have to deal with if career men of experience and training are to be the backbone of American diplomacy.

Various proposals to deal with this situation are now under consideration.
But President Coolidge apparently does not feel that this is a matter which should be dealt with by the diplomats themselves along the line indicated by reports that they will withhold their resignations.

American ambassadors and ministers.

resignations.
American ambassadors and ministers are appointed by the President for an indefinite term, but it has always been customary for them to submit their resignations at the end of the term of the President who appoints them.

This is largely due to the fact that ambassadors and ministers are the personal representatives of the President. They are appointed with the advice and consent of the Senate but are removable by the President at any time. Matter for Next President.

President Coolidge is understood to believe that the incoming President should have the customary opportunity of choosing his own ambassadors and ministers. Whether they are to be eclected from the career men or whether men of distinction outside the service are to be appointed will be a matter for the next President to decide, if custom is followed.

The custom during the Coolidge administration has been to fill ambassa.

should have the customary opportunity of choosing his own ambassadors and ministers. Whether they are to be expected from the career men or whether men of distinction outside the service. Some of the supporters of the self-perpetuating foreign service idea suggest that career men in rainking positions should only be removable by the President with the consent of the Sentage.

The President is further represented ley.

The President is further represented as believing that certain elements in the service have sought to solidify the self-perpetuating idea by making it difficult for outsiders to be welcomed into the inner ring of established cliques while at the same time seeking to make it difficult to displace those within the accepted circle.

No such standard as this is acceptable to the President, according to indications from the White House yesterday.

Resignations Are Expected.

Resignations Are Expected.

In view of the President's known views, it is now assumed that all of the American Ambassadors and Ministers will follow the custom and tender their resignations on March 4 next.

This does not necessarily mean that such resignations will be accepted. The opportunity to reappoint career men or keep them at their present posts will be open to the incoming President, it is explained.

If any American diplomat hopes to retain his post by withholding his resignation it now looks as if would be taking the wrong course to accomplish his purpose.

American Ambassador to Great Britain Houghton will be one of those who will tender his resignation as a matter of course before March 4. But, so far as President Coolidge is aware, the ambassador has not yet indicated when he will tender his resignation, although Mr. Houghton is now running on the Republican ticket as candidate for senator from the State of New York.

Central Council Elects Army's Former Chief Commander.

Nanking, Oct. 9 (A.P.).—Chiang Kal-Shek, who was commander in chief of the Nationalist forces in the Chinese civil war, was today elected president of the National government of the Chinese republic. The selection was made by the central executive council whose 44 members have been the chief governing force of the Nationalist administration.

The new president is not only a member of this council but is also a member of the Nationalist government council and has been chairman of the administrative board which has supervised the eight ministries or government departments.

administration has caused this matter to be discussed at the White House and the President's view was made known yesterday.

It is not conceded that any appreciable number of American diplomatic officers have entered into any agreement to withhold their resignations for that ambassadors or ministers in the service are sponsoring the idea of building up a self-perpetuating body of career men.

Many ups and downs have marked the career of Chiang Kai-Shek. He was studying in Japan at the Tokyo Military College when the revolution broke out in 1911. He at once abandoned his studies, returned to China and became secretary to Sun Yat Sen. Later he joined the troops in the field and participated in the storming of Shanghat, serving under Gen. Chen until the latter was dismissed by Yuan Shih-Kai.

Pershing and Marshal Allenby Among Officers Who Look On at San Antonio.

### CHEERED BY WHOLE CITY

San Antonio, Tex., Oct. 9 (A.P.).—
The measured tread of marching feet, familiar in wartime days, reechoed through the streets of San Antonio today as 10,000 former service men and members of the American Legion Auxiliary passed in review before countless spectators, who greeted each State's delegation with spirited bursts of cheering.

less spectators, who greeted each State's delegation with spirited bursts of cheering.

Beginning shortly before noon, the line of marchers, a blend of multicolored uniforms, required more than four hours to pass the historic Alamo Building, near which National Commander Edward E. Spafford, Gen. John J. Pershing, Fleid Marshal Allenby, of Great Britain, Gov. Dan Moody of Texas and other dignitaries watched the one-time doughboys stride by.

Though the khaki-colored uniforms of soldiers from nearby military posts reawakened memories of the days when America shouldered arms in behalf of the allied cause, legionnaires who marched today under the burning rays of sunshine were not the serious-faced boys who were to encounter the grimness of war more than ten years ago.

### GOV. SMITH AND THE TARIFF.

Gov. Smith will begin his second campaign tour tonight, his first speaking engagement being at Louisville on Saturday evening. He will permit himself to be seen by the people of Richmond tomorrow morning, but he has no message to deliver to Virginia. Later in the day he will be seen at Raleigh, Greensboro, Salisbury and Charlotte, but he will have nothing to say to North Carolinians. At Chattanooga and Nashville on Friday he will confer with campaign managers, but he will make no speech to Tennesseeans.

The subject of Gov. Smith's address at Louisville has not been disclosed. It has been surmised that he would speak on the tariff, for the purpose of refuting Republican arguments that prosperity is due to the Republican party's handling of the protective tariff and that Gov. Smith aims to reduce tariff duties along the line followed by the Underwood tariff. Chairman Raskob has indignantly denied Senator Curtis' statement that Gov. Smith cited the Underwood tariff as the model for legislation, whereupon Senator Curtis quotes from Gov. Smith's speech of acceptance, in which the Underwood tariff is held up as proof of admirable Democratic tariff-making.

Mr. Byrns, of Tennessee, ranking Democrat on the House appropriations committee, is anxious to have Gov. Smith make a speech on Government finance. economy and reorganization. This would be a good subject for discussion, and would enable the public to appraise Gov. Smith's knowledge of Federal finances and financial policies. A comprehensive review of Government finances would include, of course, reference to the tariff.

Many a citizen, hearing or reading Gov. Smith's speech of acceptance, must have been chilled when he noted the reference to the Underwood tariff as a sample of Democratic policy. The candidate's remark that the Democratic party did not intend to take "revolutionary" action in | veterate crook is worse than a large sum stolen tariff revision was hardly reassuring to those who regard the protective tariff as the foundation of prosperity. The people as a whole do not wish to see prosperity menaced. They shrink from experiments in tariff-making which might cause such general uneasiness as to bring about a lack of confidence and consequent suspension of new enterprises, a hauling-in of capital everywhere, a tendency to foreclose on loans, and immediate depression. Confidence in the stability of legislation affecting business is as necessary as legislation itself.

The Democratic platform pretends to abandon the old Democratic opposition to the protective tariff, but the declaration that the tariff should be "competitive" has spread doubt throughout the country as to the permanence of the protective tariff in case of Democratic victory. This doubt, if it spreads, will be nearly as disastrous as actual repeal of the law, for business men will take in sail instantly and no one will hazard money in new enterprises, new buildings, or extensions of any kind.

If the new leader of the Democratic party believes that the protective tariff is the foundation of prosperity he should lose no time in saying so. If he does not hold this belief, it would be only fair to the business men and workers of the country to tell them so, in order that they may not be taken unawares by radical tariff reductions in case of Democratic victory. Gov. Smith should give the voters his idea or what the word "competitive" means as applied to the American tariff. If it means that the Democratic party favors lower duties, so that foreign producers may compete mere advantageously with Americans in the American market, the people ought to know the worst, from Gov. Smith's own lips. That meaning is now attached to the word by business men generally, and

business is so enamored of tariff reduction as to desire sharper competition from foreign producers of his line of goods. If the Democratic platform does not favor this sharper foreign competition, Gov. Smith should reassure Democrats as well as Republicans.

### THE EPISCOPAL CONVENTION.

At the Cathedral Close on Mount St. Alban, the forty-ninth triennial convention of the Protestant Episcopal Church will be formally opened this morning. President Coolidge will welcome the delegates, and the Right Rev. Charles P. Anderson, Bishop of Chicago, will deliver the keynote address. In the afternoon business sessions will get under way, with the House of Bishops meeting at the Willard Hotel and the House of Deputies meeting im-Continental Memorial Hall.

Thirty years ago the ceremony marking the founding of the Cathedral of Saint Peter and Saint Paul was held upon Mount St. Alban, and in 1907 the foundation stone, brought from the fields of Bethlehem and imbedded in a block of American granite, was put in place. Today the Cathedral of Saint Peter and Saint Paul, while still unfinished, towers above the City of Washington, uplifting the soul of mankind by its very presence, a rallying point of spiritual and patriotic faith. In the close of this cathedral, delegates from a great congregation gather to be addressed by churchmen of nation-wide fame, and to discuss and settle matters of importance to the Church.

Washington welcomes these delegates and hopes that increase of faith will reward their labors. In men and women, such as these that are gathered here, and those of other great denominations the continued spiritual prosperity of the Nation rests.

### WORLD CHAMPIONS.

It was suggested that the world series' day of rest, made necessary by the rain that drenched St. Louis, would prove valuable to the Cardinals. Maybe it did: vesterday's result proves, however, that it didn't hurt the Yankees either. The final game was a batting orgy, as a result of which New York is undisputed champion of the baseball world, and Babe Ruth has once again become a hero. Three times the husky Bambino leaned into the ball and sent it to oblivion, equaling the home-run record of three in a single game which he set up in 1926.

It is not often that the world's championship is decided by four straight victories. The Chicago Nationals did it in 1907, but in that series a tie game had to be played off. George Stalling's Boston Nationals turned the trick in 1914, and in 1922 John McGraw's Giants took four while the best the Yankees could do was tie one game. Last year the Yankees beat Pittsburgh four straight games, and this year they triumphed over the Cardinals in similar fashion. The Yanks, however, so it was said, were a team of cripples, not fit to meet an adversary of championship caliber, so the glory of the four straight victories is all the

From every standpoint it was a thrilling struggle. New heroes were made. The under dog won. The American League, to which Washington owes first loyalty, established its supremacy over the older circuit. But best of all is the consideration shown by the Yanks in getting the series finished up quickly. Politics is in the air, and the country now can get back to consideration of more serious matters.

### THE PAROLE SYSTEM.

Contenting itself with saying that "a goodly percentage" of the 3,400 persons who came under its jurisdiction last year made good, a record that has been supported by the facts of other years, the New York parole board lays down as the rule of punishment that it should be made to fit the criminal and not the crime. The criminal instinct and criminal accountability vary with individuals, and the record of the criminal counts even more than the degree of the crime, in offenses which are subject to parole action. A small sum stolen by an inby a first offender under the stress of temptation. Such is the governing view of the board in its attitude toward the offender when he comes up for parole.

The distinction between a criminal record and a criminal act makes the difference between the man who may not be safely returned to society on parole and the man who may, The various charges under which the paroled prisoners were sentenced ranged from disorderly conduct to manslaughter, but the nature of the offense was not controlling in considering paroles.

Where a life of crime has become habitual. either by choice or environment, the power of parole to induce a better course of living is found to have little effect, but the large number of prisoners accorded parole shows a percentage of worthiness that gives to the parole board full justification as an agency to discriminate in matters of turpitude by considering the individual and the circumstances of

One outstanding class is found to be non recoverable; the drug addicts are almost never reformed. But along with them as rather hopeless prospects are listed one or two others. whose addiction to their vices it is found difficult to shake. The showing for the service of parole and its success with many will tend even more firmly to establish the system as a worth-while recovery agency.

### A CHAIN STORE PUZZLE.

Refusal of the Pennsylvania Board of Pharmacy to grant a license to the owners of a number of associated drug stores to extend their chain by new links, in that State, has brought before the Supreme Court a question that may affect the entire field of chain store operations. The action of the Pennsylvania Pharmacy Board was based upon the act of 1927 making it a crime for any one not a licensed pharmacist to open a drug store in the State, or to own a share of stock in a corporation owning a drug store. Such an extraordinary reach of the controlling arm of a State over a form of trading not limited to chain drug stores will challenge the attention of all who have interest in this evolution in the retail field. On the face of the matter it seems that this is a case of a law going too far. It should be immaterial in safeguarding they are fearful of it. No Democrat in | the health of the community, whether the

knows a prescription blank from a car token. In other States there are cases of former college professors and former car conductors owning drug stores and knowing nothing of the pharmaceutical art, although, of course, only persons who have their diplomas from accredited institutions are permitted to compound prescriptions.

The decision will rest primarily upon the range of a State's police power, and whether the legislation in question properly exercises such power, with due regard to constitutional The appellant's contention is that the statute adversely affects property rights.

In view of the fact that the Federal Trade Commission now has under investigation the entire system of chain store operation, the decision to be handed down by the Supreme Court in the Pennsylvania case will be awaited with keen interest.

### BIG BUS BUSINESS.

Five years ago the motor bus had come into kind of popularity. In cities it had supplanted the carryall for excursions and had been adopted by operators of "rubberneck" wagons. Here and there the bus had been put into general public service, but it had not at that time become a serious competitor of the trolley and railroad. Last year, however, according to Nation's Business Magazine, buses carried 2,525,000,000 passengers.

The bus goes into almost every American ommunity, soliciting patronage upon an even footing with the trolley and the railroad. Last year there were 270,000 miles of common carrier bus lines as against 257,000 miles of rail ines, and it is estimated that the buses traveled approximately 2,000,000,000 miles Their gross revenues during the year came to \$312,500,000.

Small wonder that the older public transportation agencles complain that times are not what they used to be. For a while it was generally believed that buses were but temporarily popular, but after five years of watching their clientele being slowly weaned away, railway and trolley operators have become convinced that the bus is here to stay, and have begun to fight back with such innovations as de luxe trolley cars, in which the comfortable riding qualities of the bus are duplicated and mproved upon. The older agencies, however, are not doomed. There is plenty of room in the United States for both buses and railways

### LIGHTS ON AIRCRAFT.

The statement made by Herr von Guererd, minister of transportation in Germany, to the effect that the sky may be too small for the air traffic of the future, is given added meaning by the report of several narrow escapes from crashes between airplanes and the dirigible Los Angeles. Herr von Guererd, in speech opening the international air traffic exposition in Berlin, foresaw the day when the skies would be swarming with airplanes, so that air transport centers would have to be controlled by traffic experts, just as railroad yards and crowded intersections are today.

Ohio State Journal: Our health rule

Of recent months there have been numerous instances of plane crashes over flying fields, On Sunday, for example, the operator of a cabin plane trying to swoop under a little biclane carrying two persons over a field near Detroit came too close, sending both planes to earth and killing five persons. A week or so ago officials of Mitchel Field issued an order prohibiting the giving of instruction over the field, explaining that student fliers constituted a menace when operating in proximity to a field from which transport and commercial planes were operating in great numbers.

It has not seemed that there were enough aircraft in flight over charted lanes to create continual traffic hazard, but officials of the Pitcairn Aircraft Co., operators of the New York-Atlantic route, have complained to the Navy against the practice of flying the dirigible Los Angeles without running lights visible from every direction. Twice, they say, pilots of mail planes have narrowly averted crashes with the Los Angeles. Secretary Wilbur answers that the Los Angeles carries the number of lights prescribed by the Department of Commerce, and for the time being the commander of the Los Angeles has been directed to avoid

Ships of the air, like ships of the sea, are most likely to suffer collisions after nightfall. They should be properly lighted at all times. Thus far the lighting of ships of the air has followed largely the practice found satisfactory upon the high seas; but because of the greater speed with which airships and planes are operated it may be that a more distinctive system of lighting will have to be devised.

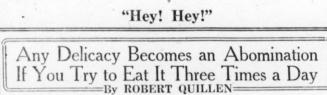

### OUTRAGE UPON TRAVELERS.

Pursuit, search and seizure of the American people while they are about their daily tasks s an intolerable outrage. Prohibition authorities who have refused to abandon interference with traffic upon the highways have not grasped this fundamental fact. Now Maj. Hesse, who plans to ask of Congress a law constituting all Washington policemen as prohibition officers, has fallen for the idea. Congress should not adopt such legislation.

The State of Maryland is following a proper course in planning the prosecution of Washington police officers who made arrests in Maryland. These men were not duly constituted officers of the State in which the arrest was made, or of the Government, and Maryland must prosecute them as violators of her laws. As a sequel to the case, Maj. Hesse has revived the scheme, presented heretofore to Congress, to have all Washington police officers made Federal prohibition agents, thus giving them power to make arrests in Maryland or anywhere else.

The protests against highway shootings prove beyond the slightest doubt that the American people will not permit their right to free movement upon the highway to be re-A citizen unquestionably is within his rights in assuming that any individual who orders him to halt is a bandit. Thus killings are sure to attend interference with traffic, whether the parties are criminals or innocent

Maj. Hesse says that he does not want Federal commissions for his force so that they can go into Maryland to search for violators of the prohibition laws, but that he believes they should be permitted to pursue rum-runners across the State line to make arrests. In practice, however, it would be found that the newly acquired authority would be abused. Congress should not only deny his request, but it should take action to put a stop to the dangerous and unwarranted practice of interference with orderly travel on the highways.

A similar logic explains the excesses and follies of those who ape the imaginary deportment of the rich.

When the poor plan a good time, they plan the spending of money. There must be extravagance and excess. Perhaps they get drunk. And that Mr. Hoover, from his record, has if this kind of thing represents a good time, then the rich, who can proven himself better fitted for the afford a good time all the time, must be extravagant always-must be immoral always-must get drunk every night.

Connolly and Wife Gave Out \$125,860 in 1926, Court Is Told.

SEEN WITH \$1,000 BILLS

New York, Oct. 9 (A.P.).—Testimony that Mr. and Mrs. Maurice E. Connolly had spent or loaned \$125,860 during 1926, when Connolly's salary as president of Queens Borough was \$15,000, was introduced today at the trial of Connolly and Frederick Seely on charges of conspiracy to defraud the city through sewer contracts.

With the aid of several witnesses, Emory R. Buckner, special prosecutor, brought out that Connolly had loaned considerable sums out of his pocket and that the defendant had been seen with rolls of thousand dollar bills. Some of the expenditures, testimony aid, were for real estate, part of which was bought by Mrs. Connolly, and some were loans to friends for real estate deals. The property purchases totaled deals. THE service obligation of the Ford Motor Company and its dealer organization is now growing at the rate of 5000 cars a day. It is to these new car owners that this message is addressed.

The new Ford is a remarkably fine car for one that costs so little. It is simple in design, constructed of the finest materials, and built to unusually close measurements.

These are the reasons it performs so wonderfully. These are also the reasons its service requirements are so few and the up-keep cost so low.

When you receive your new car, the dealer will explain the simple little things that should be attended to at regular intervals to insure the best performance. He will also tell you something of his own facilities for doing this work promptly and at small cost.

With the purchase of your car, you are entitled to Free Inspection Service by your dealer at 500, 1000 and 1500 miles. This service is due you and we urge you to take full advantage of it. Proper care during this breakingin period means a great deal to the life of your car.

Included in the Free Inspection Service is a check-up of the battery, the generator charging rate, the distributor, the carburetor adjustment, lights, brakes, shock absorbers, tire inflation and steering gear. The engine oil is also changed and chassis lubricated.

No charge whatever is made for labor or materials incidental to this inspection service, except where repairs are necessary because of accident, neglect, or misuse.

The labor of changing the engine oil and lubricating the chassis is also free, although a charge is made for the new oil.

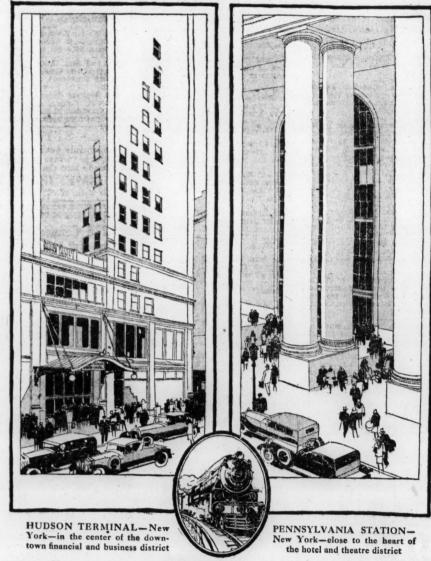

We believe that when you see the good effects of this inspection you will continue to have it done regularly throughout the life of your car.

You will find the Ford dealer very helpful in keeping your car in good running order for many thousands of miles at a minimum of trouble and expense.

He operates under close factory supervision and has been specially trained and equipped to do this work premptly, thoroughly and economically.

Two futile attempts at suicide yesterday were assigned to widely different causes by the would-be victims. Hunger, lack of a job and love for a husband whom, she says, she seldom has seen—these prompted an attempt at death by poison by Mrs. Virginia Thorp, 32 years old, registered nurse, of 3623 Eleventh street northwest. Her husband is Sergt. Ellery Thorp, stationed at Fort Washington, Va. Charles Bodmer, a 28-year-old

### Sight-Seeing Cars Rammed by Motor

Driver and Companion Are Released on Bond After Crash on Avenue.

Crash on Avenue.

Three parked sight-seeing automobiles were smashed together, and the driver of one of them, Frank L. Taylor, was thrown 8 or 10 feet across the sidewalk last night when a car operated by Floyd I. Griggs, 31 years old, of 144 Eleventh street northwest, collided with the parked machines at Twelfth street and Pennsylvania avenue northwest.

Griggs and his companion, Elmer A. Elliott, 31 years old, of Clarendon, Va., were released on bond, the former being charged with driving while intoxicated and the latter with drunkenness, after they had been arrested by First Precinct police. The damage to the three automobiles amounted to approximately \$600.

Elliott was treated at Emergency Hospital for slight cuts on the chin, inflicted by glass from the broken windshield, Taylor was uninjured.

Bennett Ault, 1806 Twenty-third street northwest, and John Bissett, 67 Myrtle avenue northeast, were the the owners of the other two cars struck by Griggs' automobile.

# A dentifrice as good as its nameand costing but 25¢

THERE are many excellent denti-frices on the market selling at a trifle above or below 50¢-but is it necessary to pay that much? Why not a first class dentifrice at 25¢-scientifically correct for all types of teeth?

Believing this to be a sound price, we created Listerine Tooth Paste at 25¢ for a large tube. It is the result of more than fifty years' study of tooth and mouth troubles. Now it is sweeping the country. Everywhere it is supplanting older and costlier dentifrices that accomplish

Due to the presence of an amazing new and gentle polishing agent, it keeps teeth gleaming white with almost no brushing. Included in it are certain ingredients we have found most ideal in keeping the mouth and gums fresh and healthy.

We ask you to try this paste not only for the marked saving (quite substantial in a large family) but for its delightful and speedy cleansing. Get a tube at your druggist today. Try it for a month. See how it makes teeth gleam. Note how good your mouth feels after using it. Compare it with any paste you have ever used and judge by results alone. Babe Told Bleacherites Believes Protested 3d Strike on Ruth Was Legal Pitch.

> "Old Master" Wonders How Cards Got in Series.

S PORTSMAN'S PARK, St. Louis, Mo., Oct. 9 (U.P.).—World baseball champions for the second consecutive year, the New York Yankees were almost as happy after the final game of the series with the St. Louis Cards today as when they won their first world championship in 1923 "The crippled Yanks," yelled Arthur Fletcher, Yank coach. "And we beat them without our ace. How about it. Ace?"

Fletcher referred to Herb Pennock, the Yanks star southpaw who has never lost a world series game but did not get into the series because of neuritis in his left arm.

"We won, that's all 1 care." Pennock St. Louis Nationals.

"Rain was the only thing that stopped the Yanks," Lou Gehrig yelled. "Where the Cards and everybody else made a mistake was to believe we were down and out because the betting was 7 to 5 on the Cards before the series opened."

Babe Ruth, happy over his part in the triumph, told about how he told the left-field bleacherites before the game he would hit two home runs.

"They began to kid me," Ruth sald, "and I told 'em I'd hit two home runs. I hit three, one for good measure."

Buth was almost as proud of his running one-hand catch of Frisch's town the consecuence of the season and the world series before the game he would hit two home runs.

For a time, it appeared as though the Cards might be in the swim today. I believed they would at least win one game and I was confident that today would be their day. They started out right well enough and Sherdel seemed to be going finely until the break came, along with the mighty Babe Ruth doing his stuff.

Ruth, to my way of figuring, should have been called out on strikes in the seventh inning. Sherdel delivered what appeared to be a legal ball. Ruth

seventh inning. Sherdel delivered what appeared to be a legal ball. Ruth was in his box at the time, although the wasn't looking. Umpire Pfirman gave him another chance and, when he got another chance, away went the ball and with it the ball game.

That drive unnerved Sherdel. Gehrig followed his teammate with another, and from that period on it was a foregone conclusion that the world series of 1928 would go to the Yanks.

Babe Ruth and Lou Gehrig demonstrated that they are two of the greatest batters of the day. The Babe is a real showman anyway you look at him. For a crippled man, he certainly behaved even better than, one in the best of health. His catch of Frankle Fritch's foul with his gloved hand brought to a dramatic close the blue ribbon classic of the year. All the credit to the Yankees. Let me say they are the outstanding power in baseball today.

ST. LOUIS, Mo., Oct. 9 (A.P.)—Although the total players' pool of \$419,736.60 set a new record for the world series, each winning share drawn down by the Yankee regulars' \$5,531.91, will fall somewhat short of the record individual total of more than \$6,000 established in 1923 when the Huggmen also won the prize. This diminution is due both to the generosty of the Yankees in remembering secretaries and other club officials and to the share now deducted from the pool for members of the two major league clubs finishing fourth.

Perhaps the mention of the \$6,000 is a false note here, because Mr. Ruth has frittened away \$6,000 full many a time, but this is only the second time he has felt the pulsation of the home run in his bat thrice in one p. m. in a world series demonstration.

Then came one of those breaks of the game whi a furnished the national pastime with its thrills and heart throbs. With the Cards hugging a 2-to-1 lead, Willie Sherdel, ast hope of St. Louis, thought he had struck out Babe Ruth in the seventh. He had fooled the Bambino with two slow floaters and tried to slip over a fast third strike before Ruth was set.

The umpires refused to allow it, and after a furious argument in which every one but the bat boys joined. Sherdel returned to the box and threw away the ball game.

(Staff Correspondent of The Post). AUREL RACE TRACK, Oct. 9.—The white and green colors of Edward Riley Bradley, owner of the Idle Hour Stock Farm, triumphed in the Severn Handicap, the feature at Laurel today, as Bob, with Jockey Eddie Barnes in the saddle, galloped victoriously in front of four other starters over the entire route of a mile and a sixteenth.

over the entire route of a mile and a sixteenth.

Running the distance in 1:44 4-5, exceptionally fast time, Boo, the 4-year-old colt of Black Toney and Iwin, led the odds-on-favorite Recreation, from the stable of Jefferson Livingston, to the wire by a full length. In third position ran the heavily weighted Gaffsman, of the Seagram Stable, two lengths and a quarter off the winner, with Aucilla another head away saving fourth place.

Laurel saw another perfect day with Indian summer weather prevailing. The racing strip was at its best and a great throng witnessed the sport. It was another day of generous prices.

Lined up before Starter Mitton, the five horses were dispatched away with little delay and Barnes cut out a sizzling pace for the balance of the horses. Once in the lead, the Kentucky thoroughbred ran like a champion, keeping well ahead of Aucilla, which was second in the early stages.

Recreation menaced the leader rounding the turn for home, but Barnes, alert to the move, used all his riding skill and piloted the flying Boo home first under the judges' stand.

Recreation put up a game struggle, but was not good enough to overcome the winning form of the pacemaker. Gaffsman, under 126 pounds, ran a steady race, but could never reach the leaders and third place. Aucilla and Nealon Kay were badly outrun in the final

In the first race, of five and a half Serenity, racing for Joseph E. Widener and ridden by Chick Lang, was the winner by six lengths. Second to cross the finish was Jesirah, followed closely Fairy Ring, belonging to Samuel

Jubilee was the first to show after the break, with Fairy Ring, her stable mate, taking the pace at the quarter pole. Rounding the turn Serenity went to the front with a burst of speed and was never headed to the judges' stand. Jesirah came with a belated rush from the middle of the field to gain the place position.

A limit field of platers went to the post for the second number. There was considerable delay at the post, caused by the unwieldly field, with Star Gold and Malcolm adding additional discomfort to those in front of the webbing, when they broke through the barrier and trotted a quarter of a mile down the back stretch.

After remaining at the post eleven minutes, Timekeeper won the decision by a head from Light Air, with Rosianante another head away in a sparkling finish, to hold third position safe from the remainder of the field.

after the break under a hustling ride by J. C. Mergler and led for the entire distance of 6 furlongs. Malcolm of-fered the early contention. Rounding the stretch turn Light Air, ridden by "Sonny" Workman, saved a world or ground and came with a rust to earn second place. Rosinante, a long shot, finishing full of run, came down on the inside to place third. The first three horses finished inches apart.

Another stirring finish resulted in the running of the third race of a mile and a quarter, as Ledger, ridden by Jockey W. Barrett, won over Sonny Golden by a half length, paying 19 to 1 to those liking his chances. Omrah was third after setting the pace for the better part of the distance.

Off to a good start Omrah, with C. B. Phillips in the saddle, went out to set the pace, followed by Trojis and Sonny Golden. unning of the third race of a mile and

On the back stretch, Sonny Golden, under Jockey G. Fields, moved up to second position and rounding the turn for home, was matching strides with the leader. Ledger, working through the field, came on the outside to earn the decision in the final strides from the tiring leaders. There was a mighty cheer from the stands when the mutuel prices were posted. mutuel prices were posted.

Long-shot specialists again rang the bell in the fourth race as Minotaur, capably ridden by L. Pichon, carried off the honors in the 2-year-old scramble, at 6 furlongs, paying \$35.70 for a winning ticket.

Positions changed frequently among the leaders during the early stages of the race. Jane Rinehart, first away from the barrier, relinquished her lead to Merano at the quarter pole, and in turn lost the pace to Beau Wrack puring the stretch run Jane Rinehart and Beau Wrack were figating it out for the lead, when Minotaur raced in his best stride to earn the decision with a galiant burst of speed, finishing the three-quarters in the good time of 1:13.

Eight routers vied for nonors over the mile-and-quarter distance of the sixth race and honors went to Dange Signal, as Jockey J. Belshak, using whip and spur, carried the J. B. Mellor racer to victory in the fibal strides in 2:06 2-5.

BLACK FLYER beam fast, but outrum first three-eighths, came to outside entering stretch and, responding gamely, slowly were down REDDY FOX. Latter, a keen factor throughout, raced BEAU ASPIN into submission a sixteenth out and faitered in final strides. DAR FUR showed a winning effort after being far out of it to midway of the stretch, where he finished strongest of all, KATHARINE W, closed well after suffering interference on last turn. RGCER tired badiy after racing into contending position on stretch turn. BEAU ASPIN set a good pace while saving all possible ground on inside, but faitered badly final drive. HOWARD LEE, in the seventh, is an other one on whom big commissions have been planted. BUDDHA, a recent arrival from New York, is the sleeper here and it will be wise to tab the betting.

Down at Laurel, the good-word is to string with J. E. Widener's MARINE in the fifth, a mile heat. This young-ster ran a corking good race behind Neddie last Saturday.

Word from the commission houses points to some doings with PUGET SOUND in the second. His last race was a little better than the dope shows.

# 2D CORPS AREA MALLETMEN QUALIFY FOR FINALS

# Ft. Myer Polo Team Bows, 14 to 8

Visiting Quartet Outplays 16th Cavalry After 3d Period.

### New York Team Does Not Need 4-Goal Handicap.

By RICHARD S. TENNYSON.

By RICHARD S. TENNYSON.

A PPARENTLY disdaining a 4-goal handicap awarded it. the polo team representing the Second Corps Area, of Governors Island, trampled the Sixteenth Field Artillery, of Fort Myer, yesterday on the Potomac Park Field, 14 to 8, in the first real upset of the War Department's high goal tourney. The victory puts Second Corps in the finals Saturday against the winner of today's match between War White and Fort Humphreys.

The New Yorkers seemed to be no match for the Virginia post team until the handicap had been wiped out and the atter team had gone in the lead by one goal through scoring five markers in the first three periods. But in the fourth chukker the visitors, mounted on their best steeds for the first

on their best steeds for the first e, opened up a smashing game that netted three goals and put them one in the lead, Artillery scoring once in the fourth.

the fourth.

In the very next period, Second Corps put the game on ice with four goals and, despite the worthy efforts made by Artillery in the later chukkers, the Northerners could not be halted.

The Sixteenth Field malletmen have an excellent allbi to offer, if they would. Maj, Cortland Parker, they would. Maj. Cortland Parker, No. 2 man, got out of a sick bed to assist his team and he was far from his usual form. Maj. Parker received an injury to his leg on Sunday, and yesterday it had to be bound tightly before he could mount his pony. His slowing up was very noticeable after the third period.

Due to Maj. Parker's disability, the entire burden of attack fell on the shoulders of Lieuts. McClure and Benson, and, in their favor, it must be said that they made a gallant attempt to stave off defeat. Lieut. Smith, a new member of the squad, was handicapped by his unfamiliarity with the tactics of his teammates.

While offering alibis for the vanquished four, it is not the intention to discredit the unexpected victory of Second Corps Area. The team had to be good to recover from the shock of having the entire handicap wiped out and a goal added in the first three periods. Aithough fighting to get back the advantage lost, the visitors maintained a smooth working passing game to the end.

Lieut. Sackman, at back for the win ners, was the outstanding star of the game. His defense and stroke were roundly applauded by the good-stzed crowd that nearly surrounded the field. Lieut. George, who last year was a member of the Third Cavalry four, was at No. 2 for the victors and showed to good advantage.

at No. 2 for the victors and showed to good advantage.

Assistant Secretary of War C. B. Robins and Assistant Secretary of Navy T. W. Robinson were among the spectators. Secretary Robinson is an ardent poloist and plays on one of the War Department teams frequently during the spring and summer.

It was learned yesterday that the Maryland Polo Club had withdrawn from the high goal tournament, but

### Champa, Duplin Lead D. C. Football Scorers

Joe Champa, erstwhile track star and sity's back field, and Ralph Duplin, one of the main cogs in the Georgetown back field, are tied at 25 points each for high scoring honors among District College players. Each has made

trict College players. Each has made four touchdowns and one point after a touchdown to amass their total:
Though Georgetown did not attempt to unnecessarily trample Mount St Mary's and Susquehanna, the Hilltoppers are the second highest scoring team in the East. They held a similar position at the close of the season last year

year
Among those who are pressing the
two leaders are Roberts, of Maryland;
Leary, Schmidt, Dwyer and Maczes, of
Georgetown; Zeno, Schmidt, Murphy
and Malevitch, of Catholic University,
and Snyder, of Maryland.

### TURNED TIDE OF GAME

Sherdel and Ruth Disagree on Legality of Delivery.

By GEORGE KIRKSEY

S PORTSMAN'S PARK, St. Louis, Oct 9.—Upon one pitch—a pitch that 9.—Upon one pitch—a pitch that legally never was thrown—the tide of the fourth game of the world cries turned today.

Little Billy Sherdel, the Cards lio

hearted left-hander, had the Yanks on the brink of defeat, only to see his temple of triumph tumbled down by Umpire Charley Pfirman's decision on a pitch which apparently would have struck out Babe Ruth at a critical stage of the game.

Ruth came to bat with one down in the seventh; with the Cards leading. 2 to 1.

Twice Sherdel slipped his slow ball past the Babe, both pitches cutting the heart of the plate. Ruth never took his bat off his shoulder to offer at either of them. Catcher Earl smith returned the second pitch to Sherdel with a snappy throw.

Sherdel was standing on the mound ready to deliver the ball when he received Smith's return throw. None of the principals moved out of their places. Sherdel whizzed a fast ball down the alley. It apparently cut the corner of the plate.

Umpire Pfirman, however, ruled it

and Charley O'Leary (Yank coach), and Frankie Frisch. (Cardinals' captain met with Judge Landis to discuss the interpretation of all rules." Pfirman said. "At Frisch's suggestion' it was agreed that quick deliveries would not be allowed. I called time before the ball left Sherdel's hand. If Ruth had hit the ball for a home run I would have disallowed it. It was a simple violation of the quick delivery rule which we all had agreed to enforce In this series."

A quick delivery is permissible in the National League during the regular playing season, but is not allowed in the American League.

"I have been throwing that kind "I have been throwing that kind of ball for eleven years," Sherdel said, "and I never had it ruled out before until today. I stood there momentarily after Smith returned the plich, to make sure Ruth was in the batter's box and ready. He was and I let the ball go with all my strength. It was a perfect strike."

"It was a quick delivery." put in Ruth. "Besides the ball wasn't over the plate and it didn't make any dif-ference anyway." Earl Smith believes the pitch was gal and that Sherdel actually struck

Hilltop Eleven Meets
Worthy Foe in Lebanon Valley.

The Georgetown University Elevens game with Lebanon Valley Saturday at Lebanon. Pa., will be the first real test for the Little-coached team this season.

The Lebanon Eleven's greatest strength is in its defense, which it showed more than once against City College of New York last week. The fact that the Pennsylvanians concentrate on their defense and have seven players who have played against dot the Penn system, practiced by the Hilltoppers, augurs well for the test they should give Coach Lou Little's eleven.

The third member of the Colonials' back field to be incapacitated is their running star, "Babe" Clapper. "Babe" painfully sprained his ankle last week and at present is unable to work out with the team. This injured trio leaves the team with an entire green back field, with the exception of "Squint" Sanders.

"Squint" Sanders.

Frazier, Berkowitz and McGrew are the three who will take the veterans' places, and none of them can boast of much experience. Not only is this combination at a disadvantage because of greenness, but its average weight is only 130 pounds, about 50 pounds lighter than the ordinary back field. Sanders, 118-pound midget, is the lightest member of the "babes."

In the line Frazier, one of the best guards on the squad, is out with a twisted elbow, and Carey, star end, has a sprained ankle. Paschal, astounded perhaps at the daring of the Californian in sprinting for second, threw the ball into the dirt and it rolled through Lazzerl. High's bunt was a hit when Hoyt and Gehrig both went after it and Lazzerl was slow covering first. This combination of circumstances placed Orsatti in position to run home on Frisch's long fly.

Two errors were needed to manufacture the second St. Louis run. Smith, at first through the medium of a solid single, was forced by Maranville, the Rabbit taking second when Koenig literally threw the ball into the stands with a double play in sight. After Sherdel flied out, Hoyt wheeled and threw to center when no player of his side was within 15 feet of the base, the ball rolling on to center field and permitting Maranville to scoot home.

The Yankees did not intend to do anything to retard Martin's progress in the ninth when they had a lead of five runs at the start of the inning, Martin, who is the junior "Rabbit" of the Cardinals, took Smith's place after the substitute catcher smashed out his third hit of the game, and ran to second unmolested. He was about to take third the same way when Holm, batting for Alexander, rolled to Koenig and the speedy Texan kept on coming to score.

The last big laugh of the series fell to Ruth. With two out in the ninth Frankie Frisch hit a foul close to the field boxes in left field, giving Ruth a chance to make a sensational one-hand running catch near the stands. The big fellow never lost his stride after gathering the ball in and ran to the New York bench waving the ball in the air and laughing.

Some of the citizens were so an-noyed by the sneak strike episode that they hurled bottles at Ruth when he returned to the pasture, but he made picturesque gestures, and threw the bottles to the side lines and put them in such good humor by his next homer that when he went that way again they stood up in a white-shirted mass and exploded a burst of applause.

On all sides in St. Louis one hears disparagement of the playing in the world series and it is true that some of the conduct was more or less Little

Collins will replace Bob Shawkey, pilot of baseball hunting parties for several years, who is giving up hunting in favor of a trip to Japan this season.

The party will include Mickey Cochrane, Athletics catcher, and Joe Bush, of the same team; Benny Bengough, Yankees receiver; Sam Jones, Washington pitching ace, and Fred Hofmann, of the Red Sox.

The players are expected to reach Fredericton October 15. After a reception that night they will go to Doaktown on the Miramichi River, then 12 miles south into the woods to Hopewell Lodge, one of the finest hunting camp. In New Brunswick, which has been placed at their disposal. # LIST TURNS UPWARD **NEAR DAY'S CLOSING**

Most Stock Groups Rally; Losses, However, Still Outnumber Gains.

### CALL FUNDS 61/2 PER CENT

Special to The Washington Post.

New York, Oct. 9.—The trend of prices turned upward in the last hour of today's session on the New York Stock Exchange, following a period of irregularity during which the tendency was to lower levels in nearly all divisions of the list. In the end losses outnumbered gains by a considerable margin, although about a score of issues established new high price levels. The day's turnover was slightly under 4,000,000 shares.

Professional bears generally were credited with the early selling pressure and, although they met with agressive resistance in many quarter, it looked for a time as if they were going to make a runaway affair of it. But after midday the buying power grew stronger and stronger and prices moved upward all along the line. With a little more time it is quite probable that the early losses would have been pretty well-wiped out.

Some of the motors, steels, oils, coppers, and miscellaneous issues, such as Allied Chemical, Air Reduction, Byers, Victor Talking Machine, Cuyamel, Montgomery Ward, Wright, Curtiss, Radio, Goodyear Tire, United Cigar Stores and Eisenlohr were the vehicles used by traders working for the rise to turn the me ket.

Gains From 2 to More Than 10 Points. Special to The Washington Post.

Gains From 2 to More Than 10 Points.

Gains From 2 to More Than 10 Points.

In this group net gains ranged from 2 to more than 10 points. As against 1 gains most of the day's net losses wounder 3 points.

Athough 276,500 shares of Chrysler changed hands, it lagged at the finish and closed almost a point under yesterday's last price. General Motors gained 4½ points net; Hudson scored a lawy peak price at 95, the closing fig. All united States Steel common moved actively over a 3-point range, closing with a net advance of 1½. Republic, Bethlehem and other independent steels turned upward strongly in the late trading, several of them finishing with modest net advances.

Outstanding net gains in other groups included Barndall A, 1½; City Stores B, 10½; Allied Chemical, 7; Bandrican Smelting, at a new peak price for all time, 5½; American Sugar, 3½; Best, 2¾; Air Reduction, 3½; Goodyear Tire, 6¾; Byers, 3½; Kroger, 2½; Manhattan Electrical Supply, 2½; Obpenheimer & Collins, 6¾; Radio, 3¾; Bright, 5¾; Victor, 6; Stromberg, 6; United Cigar Stores, 2½.

Money Markets Easter.

### Money Markets Easier.

Money Markets Easier.

Outside of the stock exchange the most interesting developments of the day were a run up in sterling exchange and an easier tone in the call and time money markets. These developments had only passing influence on stock market trading, however.

The call money rate renewed at 6½ per cent, but demand funds in the outside market soon declined to 6 per cent and it would not have been surprising had the official rate also been reduced. There was a much easier tone in the whole time money market, and the bid price for the longer maturities was cut to 7 per cent. The easier tone in the money market came just hit time to offset the bearish interpretation that some traders read into the 14% per cent coupon rate on the Government securities offered yesterday.

Rumors and denials of a plan by Chrysler to retire the old Dodge bonds with money realized by an offer of additional Chrysler stock were well mixed up. The story is persistent, and denials at first positive and definite, are now becoming less so, carrying the intimation that nothing is "imminent."

### Bonds Near Callable Price.

However, the bonds have moved up close to their callable price. The latest story is for an offer of a million shares at 65.

Brisk demand for sterling here resulted from the advance in London. The rate moved up ½ to 4.85 1-16 for cables, with some sales at 1-32 above that level. Some continentals also were strong following London, but Spanish, falling 9 points, then rallying 6, and German, which made a new low for the year on a drop of 2 points. ing 6, and German, which made a new low for the year on a drop of 2 points, were weak spots, and lire eased fractionally. South American exchanges were steady. Silver exchanges were strong, Japanese again was weak, falling 6 points to 45.70 for cables. Canadian eased back to par.

# What Are These **Investment Trusts?**

Briefly they are corporations, which through the sale of their own securities to the public, assemble the funds of many small investors and, under the direction of skilled management, invest and re-invest these funds in securities both here and abroad that combine to the greatest advantage safety, income and opportunity for appreciation.

While relatively new in this country the Investment Trust has flourished in Great Britain for over 50 years. Its growth and popularity are based on the soundness of its appeal to the investor-breadth of diversification and continuous skilled supervision of investments-both carried to a degree that is practically impossible for the investor to obtain for himself.

Guardian Investors Corporation is an American pioneer in this field, having been (including its predecessor) in continuous and successful operation since 1913. Its assets are in excess of \$10,000,000 and are invested in several hundred widely diversified securities which have been carefully selected in the principal security markets of the world.

The single purchase of Guardian Investors Corporation issues provides for the investor the safety, diversity, yield and opportunity for appreciation which are the goal of every investment program.

GUARDIAN INVESTORS CORPORATION An investment trust with assets of over \$10,000,000, widely diversified among foreign and domestic issues - supervised by a management with 15 years' successful record.

# BOND MART SHOWS SIGNS OF RECOVERY

Rails, Especially, Become Steadier: Dodge Debenture 6s Are Feature.

### FOREIGNS FAIRLY ACTIVE

New York, Oct. 9 (A.P.).—The bond market steadled somewhat today, particularly the rails, as the market showed signs of recovering from the setback caused by the announcement of new-Treasury financing at the high rate of 4% per cent. The United States Government obligations again eased, however, Treasury issues losing 3-32 to 12-32 of a point.

Trading was in somewhat greater volume, as call money was again in supply at 6% per cent. The three sizable offerings of new railroad and utility issues in the last few days, however, tender to distract attention from the listed bonds.

Dodge debenture 6s were again a strong features, selling up more than 5 points to a new high at 109%, and closing at 106%.

Pressed Steel Car 5s Weaker.

### Pressed Steel Car 5s Weaker.

Pressed Steel Car 5s, a recent strong feature, however, sold as low as 100, in contrast to the high of 117 recorded a

few days ago.

In the coppers, Anaconda 7s regained leadership, gaining nearly 2 points, while Andes 7s lost nearly 2 points in heavy trading.

In the rails, Soo Line 5s gained more

In the rails, Soo Line 5s gained more than 2 points, while Central of Georgia 5s C. Denver & Rio Grande 4½s, Norfolk & Western 4s and 6s, and Union Pacific 4s, all gained more than a point. St. Paul adjustment 5s of 2000 eased in heavy liquidation, while Rock Island 4s, Erie 5s, Katy Adjustment 5s, and Seaboard Air Line 6s also encountered Pressure.

### Industrials Are Quiet.

In the oils, Barnsdall 6s, with warrants, jumped 2 points to their previous high, and the 6s, ex-warrants, went to a new high at 95. California Petroleum 5½s improved slightly, while Sinclair Consolidated Oil 6s D encountered

selling.

Industrials were quiet. WickwireSpencer Steel 7s gained a point, while
Container Corporation 5s dropped
nearly 2 points to a new low, and
American Smeiting & Refining 5s lost
more than a point. Utilities were inclined to heaviness, New York Telephone 4½s sagging a point.

The foreign list was fairly active.
Flat 7s, with warrants, went up nearly
4 points to a new high at 128 and closed
at 126%. Republic of Finland, 5½s
gained a point, while Chile 6s of January, 1961, dropped a point.

New Utilities Offering.

### New Utilities Offering.

New Utilities Offering.

Offering was made of \$4,500,000 Consolidated Gas Utilities Co. 6½ per cent convertible gold debentures, Series A, due June 1, 1943, and priced at 99 and accrued interest, to yield about 6.60 per cent. The financing provides for the construction of a fourteen-inch high-pressure pipeline from the Wheeler Co. extension of the Amarillo Gas Field to Enid, Okla. A large part of the line has already been completed. An offering is expected shortly of \$5,700,000 Van Sweringen Co. first mortgage and collateral trust sinking fund 6 per cent gold bonds, representing new financing for the \$75,000,000 Shaker Heights development at Cleveland.

# The STORY of ANCIENT BANKING

### Pre-Bank of England

Before the Bank of England was established, merchants of London deposited their funds in the British Mint, located in the old tower of London. Here they received, as passbooks, willow sticks, five feet long and one inch square. The amount of the deposit was notched on it and a description inscribed on both sides. Then the stick was split lengthwise, one-half going to the depositor and one-half retained by the Mint as a means of identification.

Such primitive methods have been replaced today by customs which make the ancients seem laughable. For, when you purchase a 6% First Mortgage through Swartzell, Rheem & Hensey Company, your investment is surrounded by every safeguard, and your money is being cared for by a house with nearly sixty years experience in tals line of business.

You should consider this when you are making your next investment.

### New Ford Credit Branch.

New Ford Credit Branch.

Plans for the establishment of a Washington branch of the Universal Credit Co., for the service of the Ford dealer organization and Ford time payment purchasers in this district, were announced yesterday by officials of the organization. The company is authorized and sponsored by the Ford Motor Co. and announces that under its new finance plan Ford owners may buy their cars "at the lowest cost commensurate with sound business policy."

It was stated yesterday that the plan contemplates the purchase by Universal Credit Co. of sound and adequate fire and theft insurance protecting the joint interests of the purchaser, the dealer and the company in the car. The purchaser will receive a policy of standard form insurance providing protection for one year. The company is opening branch offices as rapidly as possible in large cities from Coast to coast.

Freight Loadings Increase.

Loading of revenue freight for the week ended September 29 reached 1,196,768 cars, an increase of 53,554 cars over the preceding week, the car servate division of the American Railway Association announced yesterday. Gains were reported in the loading of all commodities except livestock and ore, which showed small reductions. The total for the week was an increase of 69,865 cars above the same week in 1927 and an increase of 16,719 cars above the corresponding week two years ago.

All districts reported increases in the total loading of all commodities compared with the same week last year, except the Pocahontas and Southern, which showed decreases. All districts, except the Eastern, Alleghany and Southern, reported increases compared with the same period two years ago.

Electric Power Output Record.

Electric Power Output Record.

New high records in electric power output of the North American Co., of which the Washington Railway & Electric Oo. and the Potomac Electric Power of Co., of this city, are subsidiaries, indicate a continued upward curve of industrial activity. Output for the third quarter was 1.572,800,000 kilowatt hours, an increase of 16.5 per cent over the same period of 1927. Total output for three-quarters of this year was 4,450,000,000 kilowatt hours, an increase of 14.5 per cent over three-quarters of 1927.

### Wives of Tomorrow By FRANCES MCDONALD

By FRANCES McDONALD: How much must a girl stand from a man's mother? I have been engaged for two months, and the, man's mother takes the attitude that my education should be taken in hand. I dislike her to star with and when she attempts to tell me what I should and should not do I certainly feel like referring her to the well-known constitution of the United States. She has reached the point where she feels she flay comment upon my clothes. I was taught that such procedure was the evidence of a lack of breeding and considered very bad manners. She apparently thinks clother are worn to be commented upon. Last week I purchased a pair of suede pumps, for which I paid \$9. When she saw them the same with a statement should be made by any one in connection with me I cannot guess. To my father has ample means to provide for me as long as I live—even it my husband could not. I was indigent, and ready to lose control of my temper when her spinster daughter decided to take a hand, her offerin; was that she 'hough an overcressed person was an offense. I rose and reminded my fiance that we were to take a ride. I then told him I would not marry him. He felt much abused and declared that if I cared for him I would pay no attention to his mother and sister. I have promised to reconsider. What is your adverted to a very lustified in demanding the courtesy that is your due Tell the man that his people must be made to understand that you are an adult of average intelligence, and that when in need of advice you will assuredly request it, but that in most matters you are quite confident of your own affairs. Such meddling and officious females a pests, and must be firmly handled. Insist that the man assert himself. If he refuses carry out your determination to break with him.

HEART CLASS.

Mrs. G. L. writes: What do you mean by a "heart class" in law heart trouble and my ankles swell.

REPLY.

A heart class is a loosely organized group of people with heart disease. They meet once a week, once a month, or less often, but periodically, to receive instruction from a doctor and murse on how to live. As a rule, the class meets in the evening at some convenient place.

The nurse usually follows up with home visits to see that the rules are

ANSWERS.

37. To trick 1 Declarer should play he King of Spades from Dummy and he Queen of Spades from Closed Hand.

the King of Spades from Dummy and the Queen of Spades from Closed Hand. The reason for this unusual play is that Declarer fears the adverse Hearts. By passing the Spade up to the Closed Hand (playing small from Dummy) he would be sure of four Spade tricks, two Clubs and one Diamond—a total of seven tricks. To make game he must try the Diamond finesse; if it succeeds, he will make eleven tricks. But West may have the King of Diamonds and, if so and South takes the first trick with the Ten of Spades, West, when he won with the King of Diamonds, would know that to continue Spades would be useless and probably would shift to Hearts. A Heart lead assures at least five Heart tricks for East and West, and kills all hope of game for Declarer.

If Declarer camouflages the Spade situation by playing the King from Dummy and the Queen from Closed Hand, he may make West think that South has the Ace of Spades alone, and thus tempt West to make one more Spade lead to clear his suit. Three Spades, four Diamonds and two Clubs are all South needs, so the camouflage may succeed even if the Diamond finesse lose.

38. To trick 2. North should lead the

Laurels enough? Not yet Hope Hampton wants to be a grand opera star,

wearing them or not. And in these days of high prices there is the money to consider.

Naturally some people, running true to form, hold up hands in holy horror and repeat what they said when dresses were shortened and hair bobbed. But they remember that, usually, these protestors have their future behind them. They are disillusioned, dyspeptically as an ordinary draftsman? If interested in drawing, which of the many fields of art are you planning to do work with preschool children's education? Do you aspire to social service work? Is music to be your vocation or avocation? What chance has an ordinary draftsman? ing the legs. This in the end defeats the purpose it sets out to accomplish. A MASCULINE EIGHTEEN.

Combined with this unofficial opinion of our boy correspondent of the day is the official word of the Bridgeport. Conn., school board: "Whether school girls are to wear stockings or come with bare legs is a matter for parents to decide and not for the school authorities."

The attorney general for California eccently ruled that girls might go to school without stockings "If their legs washed clean."

While the young gentleman's advice s given in his out to is share a week and sometimes only once, but I am always glad when he comes.

are washed clean."

While the young gentleman's advice as given in his last paragraph rings like an experts, we question perhaps his praise of the asthetic qualities of all bare legs. This interest in physical welfare of young girls is commendable and it is to be hoped that our spokesman of today will influence his mates to interest themselves and the rest them without oral expression. Very kilely he has already read the signs. The question of how many nights you should see each other many nights you should see each other and it is to be hoped that our spokesman of today will influence his mates
to interest themselves and their girl
friends in out-of-door sports where the
sun shines, in getting the girls home
before 10 p. m. and in giving them opportunity to eat their meals without
telephone interruptions

We trust that the girls will have a
heart for the older members of their
sex and not push the fad too far because so many of their mothers and
aunts will look rather ridiculous in

### POLITICAL BROADCASTS TODAY

1:30 p. m., Senator George H Moses, of New Hampshire, presented by the Republican national committee, WMAL

10:30 p. m., Senator Carter Glass, of Virginia, WRC.

President Coolidge will deliver an address at the opening service of the forty-ninth triennial general convention of the Episcopal Church at 11 o'clock this morning to be broadcast from station WRC. The Right Rev. Charles Palmerston Anderson, Bishop of Chicago, will also speak.

A choir of 250 voices and band under the direction of Edgar Priest will furnish the music. The service will be broadcast from the Cathedral Amphitheater at Mount St. Alban.

The Palmolive Hour will be broadcast at 9.30 o'clock from station WRC, getting off for a lively start with the ensemble singing "Hold Everything." A guitar novelty will precede a duet between Olive Palmer and Faul Oliver, which will be "Make Believe" from "Show Boat." Another feature will be the singing of "Old Man River," a Begro song hit from the same Elegfeld production, by the Revelers.

For the symphony orchestra numbers, Director Gustave Haenschen has selected Pietcher's "At the Court of Cleopatra" and "Scherzo" from Mendelmonha "Midaummer Night's Dream." Olive Palmer's solos will be "Tales of the Visinna Woods" and "The Rose Entalves the Nightingale," while Paul Oliver will sing "Do You Know My Garden,"

"The Heavens Are Telling" from

Loring Heads Financing Plan to Rehabilitate the Textile Industry.

SEEKS PLANTS' CONTROL

Pall River, Mass., Oct. 9 (A.P.) .- Por tion of the Merchants and Manufacturers, Inc., a corporation to purchase and operate converting houses in the North and South, as a step in the plans of Homer Loring for the renabilitation of the New England tex-

tile industry, was announced here to-day.

The new company is chartered under the laws of Delaware. Its capitaliza-tion consists of 150,000 shares of 6 per cent authorized cumulative pre-ferred stock with 50,000 shares of no par common authorized and out-standing, underwritten by Kilder. Pea-body & Co., of Boston, and offered at 107½. With each share of preferred atock offered is given a bonus of one share of no par common. Mr. Loring and his associates retain 250,000 shares of common stock.

and his associates retain 250,000 shares of common stock.

It was announced that the purpose of the financing is to acquire a substantial interest in the converting access of Cornhall & Marx, the Seneca co., and a third house not announced wift. Loring is to be president of the new corporation and Max Marx vice president. The common stock is to be used in a voting trust with Loring and Marx as trustees and the First National Sank of New York as arbiter.

ONE of America's greatest corpora-tions\* called upon Shaw-Walker to execute 5495 purchase orders for office equipment in one year. Deliveries covered 304 offices in 76 cities in 39 states, four Canadian provinces and two foreign countries. These operations were completed

without a single major complaint against Shaw-Walker. Another notable indication of the worth of "Built-Like-a-Skyscraper" products and of the helpful, constructive aid which Shaw-Walker's trained representatives give to leading organizations throughout the world.

Religious Pageant Will Be Participated in By Over 1,000 Persons.

### DELEGATES WILL ATTEND

Delegates, clerical and lay, and visitors to the general convention are looking forward with keen interest to the entations of "The Cross Triumphant," a religious pageant written by Mrs. Marlietta Minnigerode, which will Mrs. Marlietta Minnigerode, which will be given at the Washington Auditorium October 19 and 20 under the auspices of a committee of social notables, headed by the Right. Rev. James E. Freeman, Bishop of Washington, as honorary chairman. The delegates to the general convention will be given complimentary tickets to the presentations. For five months the committees and participants have been working diligently to present a spiritual and impressive presentation which will set high standards in religious drama to the church. Mrs. James Carroll Frazer is executive chairman of the production. In a sense the pageant is the gift of the people of Washington to the delegates, and more than a thousand persons will assist in various ways in its presentation, under the general direction of Marie Moore Forrest, general director of the production.

Mrs. Andrews originally wrote "The

rection of Marie Moore Forrest, general director of the production.

Mrs. Andrews originally wrote "The Cross Triumphant" for the benefit of St. Mary's School, Raleigh, N. C., the oldest Episcopal Church school for girls in the United States. It received its first presentation in the Cathedral Close on May 12, 1922. Since that time it has been given in its entirety in Raleigh, N. C.; San Antonio, Tex.; Pasadena, Calif., and in abridged form in many Episcopal parishes.

### Again Serve on Cast.

Many Episcopal parishes.

Again Serve on Cast.

Many of the same persons who assisted in its previous production are serving on the committees and cast again this year. On the executive committee are many of the same members, including Mrs. Carey H. Brown, to whom Mrs. Andrews says she is indebted for the original inspiration; Mrs. Andrews, Mrs. Marle Moore Forrest, Admiral Cary T. Grayson, and Commander C. T. Jewell. On the advisory committee are Mrs. Woodrow Wilson, Mrs. Charles P. Summerall, Mrs. John A. Lejeune, Mrs. William D. Leahy, Mrs. William Woolff Smith, Mrs. Walter Tuckerman, Mrs. Z. Barney Phillips, Mrs. Charles Tompkins, Mrs. Cary T. Grayson, Mrs. C. C. Glover, Jr., Mrs. William Corcoran Eustis, Mrs. F. Trube Davidson, Gen John J. Pershing, Rear Admiral A. L. Williard, U. S. N.; Maj. Carey H. Brown, U. S. A.; Rev. Charles T. Warner, and Mrs. Fulton Lewis. Charles J. Bell is treasurer of the pageant funds.

"The Cross Triumphant" has been rewritten in part since its first presentation in the National Capital. Mrs. Andrews has been assisted in the scene, "Missionaries by Camp Fire," by Commander Jewell, himself a pageant author and director, and Mrs. Forrest has introduced, with Mrs. Andrews' consent, a number of symbolic overtones, in several of the more historic scenes, to heighten the spiritual effect.

The music for the pageant, originally arranged by Francis Leigh, an Englishman, at that time director of the United States Any Band, has been lately rearranged under the supervision of Adolf Torovsky, organist and choirmaster of the Church of the Epiphany, and Capt. Taylor Branson, leader of the United States Marine Band. Episode 1, "Joseph of Arimathea," will be played by a prominent group of Washingtonians, with Denis E. Connell as Joseph, and with groups of Hebrews, directed by John Long, and angels directed by Miss McKinley, playing an impressive part in this opening scene of the story. The episode was originally sponsored by Lady Geddes, of the British Embassy, and it is hoped that the embassy will sponsor the scene again.

Episode 2, "St. Alban, Protomartyr of Britain," will be, appropriately, presented by St. Alban's Parish and sponsored by Mrs. I't Helmick. It tells the impressive stor; of Alban, the Roman soldier, a pagan, and his magnificent Christian sacrifice. The parts will ue taken by members of St. Alban's Church, assisted by the McKinley Dancers, who present the war scene.

Episode 3, "St. Augustin and Queen Bertha" will be presented by St. Stephen's Church, with Samuel B. Reeder and Miss Dorothy Reeder as sponsors, and with the Rev. George Dudley, as St. Augustine, Mr. Reeder will appear as Pope Gregory, Miss Reeder as the queen, and James Biscoe as King Ethelbert. Others taking part will be Mrs. Carmack, Mrs. Biscoe, the Misses Dyson, Fogle, Ward, Pollock, Bergfeld, Cockerill and Messrs. Holdatock and Fogle, appearing as abbesses, ladies in waiting, and guards.

Episode 4, "St. Hilda," will be sponsored by Miss Katherine Judge, as in the original production, and Miss Judge will herself appear in the title role, assisted by a group of girls from a prominent school in the city, and with a choir of nuns by the pupils of Paul Bleyden and under his direction.

Episode 5, "The Crusader," is being sponsored by Miss Virginia Hunt, who, with Mrs. Earl Lear, will appear as ladies-in-waiting to Queen Eleanor of Aguitaine, which Mrs. Horse Carroll

# **NAZARENE SOCIETY**

Healing of Bodily Ills by Spiritual Means Practiced by Members.

### PROGRAM AS ANNOUNCED

The Society of the Nazarene will ld a conference in Washington for six days, beginning October 14. The zation composed almost entirely of members of the Episcopal Church, but not founded by action of the general convention. It is in that sense more analogous to the Brotherhood of St. Andrew than it is to the Woman's Auxiliary. It is fully recognized by the church, by the diocesan bishops and by clergy and people generally.

The Society of the Nazarane stands for the cultivation of the inner life. It exists in part to preach the docrine that the Son of God was made Man for the saving of the whole human beings, body, mind and soul. It so reads the New Testament that it conceives "Heal the sick" to be & literal command of the Saviour to His disciples. It practices spiritual healing, or more properly the healing of bodily ills through spiritual means. Science and Religion Closer.

Both physics and the science of nedicine are coming to fully recognize in natural processes the existence of nething, not material, which plays a vital part in life. Religion recognizes a vital part in the Rengion recognizes the existence of soul, but is groping to discover its relation to the body. Science and religion are drawing close together in the practice of spiritual healing. Many members of the society are physicians of note. The society recognized the full value of medical practice and is lotally opposed to any ractice and is totally opposed to any

With Gen. John J. Pershing as national chairman and former United States Senator George Wharton Pepper as executive chairman, they are functioning as the leaders in a movement which has as its ultimate objective the stimulation of the religious life of the country through widespread dissemina ion of Christian teachings. Secretary of the Treasury Andrew W. Mellon is the treasurer of the Cathedral cam-

thedral as rapidly and as efficiently as possible is the immediate aim of the campaign in which they are taking part as members either of the national ommittee or executive committee for Vashington Cathedral. Funds are now Washington Cathedral. Funds are now being sought in communities throughout the country with which to complete and adequately endow the choir, crossing, north and south transepts of the edifice which has been rising on Mount St. Alban since 1907. It is estimated that \$6,800,000 will be required to defray the cost of this construction and to provide sufficient endowment. Eventually it is proposed to raise a total of \$30,000,000, which will be used to complete the Cathedral and to provide the 30 or more associated institutions that are required to carry out completely the Cathedral's comprehensive program of Nation-wide Christian service.

ington and the diocesan committee for the general convention.

The editor of the Forerunner has been the Rev. Dr. Robert Johnston, rector of St. John's Church, assisted by the Rev. Dr. D. Wellington Curran as coeditor. Dr. Johnston, with the instinct of the scholar and literary man, struck a high note of efficiency and effectiveness in every issue of the Forerunner. Much praise was expressed for the magagine which was a pleasing novelty in pregeneral-convention activity.

Girls' Friendly Society Also to Give Teas for the Women Visitors.

Women Visitors.

The series of luncheons sponsored by the Girls Friendly Society, which will be in the nature of conferences, on October 12, 16 and 18 at the Hotel Lafayette will be most popular, if the record achieved at former general conventions is reached at the Washington general convention. They give the woman visitors to the general convention a chance to hear speakers on missions and other church topics from many parts of the world.

On Friday "G. F. S. on Far Horizons" as the general topic will give opportunity for speakers to tell of the work of the society and the church in Japan, Alaska, Mexico, Porto Rico and in Africa. The second luncheon, on October 16, will deal with the topic "The Contributions Being Made by the Different Organizations of the Church Toward the Character Development of Young People." The final luncheon, on October 18, will consider "Work in Urban vs. Rural Communities."

Tea will be served at the Washington National Center of the Girls' Friendly Society, 1533 New Hampshire avenue northwest, every afternoon during the convention.

# The Ideal Method of Heating Churches

RCOIL, the Perfect Oil Burner, solves the problem A of heating churches as well as homes. It is cleaner, more satisfactory and more economical than coal. It does not require constant watching or stoking. The mere turn of a switch starts it operating and the thermostat control automatically cuts it off when the desired temperature is reached.

With ARCOIL you do not have to buy and store large quantities of fuel, you have no dust or dirt to contend with-no ashes nor cinders to dispose of.

Simple and sturdy in construction, the ARCOIL Oil Burner is built to give a lifetime of uninterrupted service. It incorporates many new and exclusive features and the most scientific principles of combustion. Investigate the advantages of heating your church, parish hall, or your own home with ARCOIL.

dicial history of the society here begins with May, 1897, when the diocesan organization was formed by Bishop Satterlee. Three branches, the nucleus of the society, were Epiphany, St. John's, Georgetown, and St. Philip's, Laurel.

During the first decade local interest increased greatly. At the general convention in Washington in 1898 the pastoral letter of the House of Bishops recognized the G. F. S. for the first time, commending it to the church. This brought the organization to the attention of the whole country. In 1901 the diocesan organization entertained the council of the society. A reception by Mrs. Roosevelt at the White House and one by the Bishop and Mrs. Satterlee gave color to this meeting.

S. was opened at Rattling Spring near Harpers Ferry, an enterprise which proved a boon to many Washington girls. This house was occupied for two summers, then for a time a house was rented at Gainesville, and in the spring of 1905 an attractive piece of property was purchased at Sandy Spring, Md., which was happliy occupied for many summers until, in fact, the old house literally fell to pieces, and in 1922 the society was most fortunate in being able to obtain the present beautiful Holiday House overlooking the Potoman to far from Mount Vernon and a part of the original estate of George Washington.

The entrance of the United States into the World War in the spring of 1917 was a starting point of a new era of work and achievement for the G. F. S. in Washington.

A house was rented and opened as a lodge for the many members coming to Washington to take positions with the Government. The G. F. S. in connection with other organizations maintained a lunch wagon which for many months served swarms of girls working in the War Department. It also opened and ran a rest room for girls on Pennsylvania avenue where they could gather after office hours for a cup of tea, and meet friends. ### Prayer Is Realized.

The years passed and Joseph Nourse went to his rest. But the seed of prayer he had planted was not lost A church school for boys vas built on the site and an "upper room" reserved as a chapel therein. His granddaughter Phoebe Nourse, was a constant attendant on the chapel service until her health falled. The tradition of her grandfather's prayer led her to work quietly toward the ideal by sewing little fancy articles which her friends bought. When she died in 1848, 40 gold dollars were found in a tiny box, the result of her handlwork, marked "For a Free Church on Alban Hill."

So impressed were friends and relatives with her offering that they used it as the nucleus of a church fund. The boys of the school and her brothers dug the foundation walls, and a little church was built and consecrated by the Right Rev. Rollinson Whittingham of Maryland, the first free church in the present Diocese of Maryland.

So skilful was his development of this feature of diocesan work that he earned the title from some of his colleagues of "the engineer of God." For eleven years Dr. Curran stood by the side of Bishop Harding in mutual counsel and common effort, and has continued his devoted service under Bishop Freeman.

Since the formation of the executive council of the diocese, Dr. Curran has occupied the post of executive secretary. Bishop Freeman, always generously appreciative of the work of his clergy, showed his appreciation by mominating Dr. Curran to an honorary canonry of Washington Cathedral.

The life story of Dr. Curran is most interesting. Born in Ireland in the same town as was the late Bishop Harding, Dr. Curran received his education at St. Francis' College, McGill University and the Diocesan Theological College, St. Andrews, Montreal, Canada.

In 1902 Dr. Curran was ordained to the diaconate by Bishop Huntington and in 1904 was raised to the priesthood by Bishop Millspaugh. He was president of bishop Harding. He was president of the Archdeacorry of Washington from 1917-1926. In 1918 he was a member of the board of misisons for the province and has been prominent in other church activities.

for choir stalls in Washington Cathedral, the cathedral authorities have announced. The trees were removed to make room for the foundations of the edifice, which is now lifting its noble proportions high above the Capital City and are now being seasoned.

When prepared for use, the timber will be carved in graceful Gothic design to harmonize with the general acchitectural plan of the cathedral. A notable feature of the stalls will be concealed platforms for the accontandations of a syphony orchestra and chorus so that it will be possible to augment the cathedral choir of men and boys whenever great oratorios are given in the completed edifice.

The choir, the portion of the cathedral between the sanctuary and the transepts, is in an advanced stage of construction. The walls have been completed through the triforium gallery and are now being raised through the clerestory. The next step will invoive the placing of the stone vaulting Funds for this construction and for the completion of the crossing, north and south transepts and north porch are being sought in a Nation-wide campaign, which Gen. John J. Pershing is directing as national chairman.

ASSERTS QUINN PULLED RICKERT FROM CROWD

Coggins Says That He Pointed Revolver to Keep Bottles From Being Broken.

An admission that gun play was employed by prohibition agents in the Ambasasdor Oyster House, 2106 Eighteenth street northwest, before other agents and police, armed with a search warrant, arrived for the raid on the place August 3, was made yesterday by Edwin P. Goggins, a dry agent, at the opening of the trial of liquor charges against the four men arrested in the invasion.

Goggins also admitted that he saw Deputy Prohibition Administrator John J. Quinn drag Earl Rickert, of 2112 Eighteenth street, from a crowd of bystanders into the place. Rickert recently charged that he was dragged into the place, kicked by Detective William P. Burke, of the police vice equad, and beaten by other raiders. When authorized by District Attorney Leo A. Rover to swear out a warrant for Burke for assault, Rickert refused because Rover would not authorize a warrant for Quinn. Goggins also admitted that he say

Coordination of the city's civic and social agencies in inaugurating a campaign designed to influence Congress in providing better public school facilities—especially for crippled and health pupils—is now in progress.

The campaign is being fostered by special committees of the Board of Trade, Kiwanis Club, Association for the Prevention of Tuberculosis and officials of the Children's Hospital, and has the approval of school officials. It is the purpose of these and kindred organizations, to make a survey of present school ills and then, through an intense publicity campaign, turn Congress' attention to the school needs.

cipal Wintess of Day, Details Construction Costs.

The Public Utilities Commission yesterday rejected an offer of the Washington and Georgetown Gas Light Companies to accept the valuation figures prepared by the commission's own expert, and the gas valuation hearings apparently settled down to a long grind of technical testimony and examination which is expected to last for weeks.

The offer of the gas companies was made by Swagar Sherley, of counsel for the companies, when the commission met yesterday morning.

It was preceded by a rejection by the company of the proposal of Col. Harrison Brand, commission member, that one member of the company and commission engineers and seek to thresh out as many differences as possible at unrecorded hearings.

Brand's Proposal Limited.

Brand's Proposal Limited. Although there was only \$350,000 difference between the valuation totals arrived at by H. Carl Wolf, commission engineer, and R. O. Luqueer, company engineer, there were wide discrepancies in the amounts silowed for many items.

Brand's proposal was limited by Col. William B. Ladue to facts only, and not to prices, and was made at the adjournment of the hearings on Monday.

day.

The counteroffer of the gas companies to accept the commission engineer's figures was made at the opening of the hearing yesterday and prompted an executive session of twenty minutes on the part of the commission.

Luqueer Principal Witness. Hearings were ordered resumed by mediately interrupted by Col. Ladue, who spoke an aside to Childress, after Childress said he had meant that the company's proposal was re-

jected.

Mr. Luqueer again yesterday occupled the witness chair the entire day, going over each piece of proper'y owned by the company and describing in detail the number of bricks in each wall, the number of panes of glass, feet of electric wiring and details of equipment and the prices at which, in his opinion, they could be reproduced new.
